This listing is as close to a complete compilation of Japanese produced Lancer//Mirages, as we can achieve, without having actual shipping documentation from owners, dealers and the head offices of Mitsubishi Japan/ Mitsubishi Heavy Industries. The range of years covered here starts with the Lancers June 1988 and encompasses all Lancer/Mirage model changes through to October 1990. The production following 1990, well precedes the final production run of the C5x/6x/7x/8x sedans and hatches that were shipped to North America and outside the Japanese Territories. So in late 1990, the C5x/6x/7x/8x series of automobiles saw it's production cease to the Japanese Domestic Market (JDM), and at which time they were replaced with the CC sedans of much the same heritage. Anything beyond October 1990, is outside the scope of the 3rd generation JDM, 4th Generation CSM's to those of us in North America. Included, is the linking to the option sheet from option sheet from which most of the information was harvested. (<http://english.auto.vl.ru>)

All information listed here is based upon the files listed at the aforementioned web page, and as such the accuracy is good but cannot be considered definitive in it's own right. This is to be used as a guide, only because we cannot as of yet, fully confirm all the details therein. Additions will be made as we become aware of them or as members contribute more to the cause.
